

WHAT DO YOU THINK?

DECEMBER 2021

No date- That new display is witchcraft. Needs to be removed. This is a library not a place for the occult.

Patron Dane Reference to the Día de los Muertos exhibit by local artist Johnny Skinner.

No date- Get the other computers out. There's not enough. Why do you wait?

Patron Dane

Oct 5- The Hot Spot is my only Internet. It makes a tremendous difference in my life. I truly appreciate it. Thank you. PS. Your staff are wonderful. If you can help get funding for it or keep it, please let me know.

Patron Mary Danford

Oct 21- We need some more computers upstairs. Time for a change. How about it?

Patron Dane

Oct 26- Thank you for all that you do and for all that you offer our community, for a clean and quiet space to broaden our minds and those of our children. We understand the population in the Flathead is increasing and look forward to hearing about the innovative plans to grow the public library with the additional staff, services and a diverse selection of materials necessary to meet the needs of this growing community. Thank you so much!

Oct 27- Love the *Día de los Muertos* exhibit!

Oct 28- Thank you for the Day of the Dead display! We need more of that kind of expression in the valley.

Oct 28- I love this library. I think the staff does a great job, often going above and beyond to help. Keep up the great work.

Patron Judith Pressmar

Oct 28- So pleased with the display for the Day of the Dead. Helps us understand the cultures. Thank You.

Patron Lois Wagner

Nov 2- Re: The recent book challenge. Please let the librarians settle this issue as they are trained extensively to do. Our community doesn't need one more divisive issue, nor does the county government need another lawsuit over constitutional rights.

Nov 2- Please do not censor books or library materials. I promise not to check out anything I find offensive, and if I mistakenly do, I'll return it.

Nov 10- The system that puts books on the shelf according to type of book rather than author is not user friendly. It would be nice if you returned to the former.

Nov 10- You have really good books! You also have fund little projects that we can take home!

Nov 17- I read the article about some people wanting the graphic novel (memoir, adult section) banned. I disagree. Just because it's a graphic novel doesn't mean it's for children. Please do not go down the dark oppressive rabbit hole of book banning. Thank you very much for your hard work!
Patron age 63

Nov 17- The Tech Connect program at ImagineIF is great! I spoke with Sam, your IT guy. Very informative and very helpful. I really get it now!

Nov 19- I find navigating the new web site very difficult. Wish you would not have changed it. Bill Carlberg
