

WHAT DO YOU THINK? OCTOBER 2021

KALISPELL

No date- Need the other computers upstairs. Too many people waiting for time. Staying on over an hour.

9/13- My family has been so enriched by the library and all the staff. Great. They do a wonderful job. Heather Bradley

9/18- These Covid restrictions are unacceptable to our community that pays tax dollars for services our library should provide. Especially to our children who suffer from the lack of resources you continue not to provide. This is getting out of hand and I do NOT presume to think you will change anything in a couple of months, when we are in the thick of fall/winter. Your measure by which you will feel comfortable opening, will NEVER be met. It's time to think about whether your consistent restrictions make any sense whatsoever or if you're bowing to a nonsensical, illogical narrative that ONLY hurts the community, not helps. Steffany Buck

Response from Martha:

Hi Steffany,

I can make arrangements for your group to use the meeting room. I'm so sorry you were disappointed in the response. Can you please respond to me and Teri (copied above) with your day and time needs? Thank you, Martha

Response from Steffany: Yes, I will get back with you on the specific date we're looking for.

10/6- Such a super, wonderful, fantastic library. Such fine, wonderful, super employees and activities. Keep up the excellent job.

10/7- When will you set up the other computers? Lots of people waiting.

BIGFORK

9/29- Thank you so much for letting Grounded use the Wi-Fi hotspot for so long! We really appreciate your "bridging the gap" while we got our Wi-Fi set up. Our high school friends really appreciate it too! You guys rock! Sincerely, The Grounded Board.
