

>A furry, tapir-like baku wearing the ornate dress of a guild officer beckons you forward.

"Oi! You there! Judging by your starter gear and ambitious aura, you're fresh from a training montage and looking to start your hero's journey. Now, don't go gunning for Vecna just yet! I've seen too many promising adventurers waylaid by poor foot hygiene, inventory management issues, and the ever-dubious 'Leeroy Jenkins' maneuver. Luckily, the glorious and lucrative career you've dreamed of is all possible through the guidance of the Questing Guild!"
